ALBANY.

Rev. Samuel Dickinson preached his farewell sermon Sunday eve., April 14 from Gal. 11:8, 9, and 10, setting forth the importance of a working religion .-Mr. Dickinson returns to his studies in Bangor and graduates in June.

Mrs Hattie S. Annis and Miss Rosina Bashaw are making each a bedquilt which are truly worthy of notice. The one made by Mrs. Annis is called the "puzzle" quilt, and is made up of 2416 pieces, and that made by Miss Bashaw is 1680 pieces.

ANOTHER LETTER FROM ALBANY .-E. H. Webster :- I see that your correspondent makes West Albany a paradise. I will admit that to be so, but Adam and Eve were turned out a long time ago. Your correspondent confines himself to the south-west corner of the town. Perhaps he has forgotten, or else he thinks that West Albany is all there is of Albany; but I will beg leave to cite him to other places. About one mile east of his paradise is a high ridge of land on which is built the Center,-very good land-and there is a church there too, we will pass on to the east 2 1-2 miles, then we come to another valley which extends from Newport to Montpelier, through which runs a road called the haps may not be as pleasant as A. claims Black River Valley to be, yet I think it for that kind of grain.

is full as fertile. There is but one kind of grain that can be raised better in Black River Valley than in Creek Valley, and that is India wheat. The soil in the east part of the town is too rich They have churches in this valley .-The Freewill Baptist church is pleasantly situated on the creek road in the north part of the town: then we come to East Albany. Here is a small village growing up where are two stores, -one not occupied, however, at present-the other is owned by B. N. Moore, who keeps a good assortment of goods; one blacksmith shop, owned by M. Dunn; a circular board mill by John McGuire; one wheelright shop by Mr. Critchett; one postoffice, church and a good school house. Then, if you please, pass three miles in atory to receiving spring goods. a southeast direction, you come to South Albany, where you will find a church, school house, store, blacksmith shop, saw mill, postoffice, &c. This village is pleasantly situated and bids fair to be next to West Albany, and is all in Albany. Mr. A. says they have a "Man of God, who labors faithfully for the salvation of souls." We fully believe it, but cannot see what enjoyment he can have. He has one consolation, that if he "cast his bread upon the water it shall return to him after many days." He says again, "with all our happiness three things earthly lack we yet; first, a railroad,' and says that "Black River valley is not the only possible route through which this road can be laid." I agree with him in that fact when there is a shorter and more feasible route. The route thro' on the creek will save three miles in distance from Craftsbury to Irasburgh, will be less deep cuts and not so many gulfs to fill. It will run near the stream called the creek, and there will not be onehalf the land damages that there will be in the Black River Valley. I hope these things will be taken into consideration by the committee at the railroad meeting.

all the products that Mr. A. boasts of will have to come to this road, when if it goes through the west part of Albany the east part will go to Barton with their that little spark has caught on combustible material and the fire begins to burn. I hope it will kindle to a flame, and shine even to West Albany, so that your correspondent can see all over Albany. to the East as well as the West; and if we have the best route for a railroad let us have it, and not be selfish, and say it must go through West Albany. I say if we build a railroad through town, let it be located in the best place, without regard to the creek or river. Let us try to work for the benefit of the whole town and not for one corner of it; and do as we would be done by, and train up our children in the fear of God, and the next generation will be an improvement in many respects. A MAN KILLED ON THE VT. & MASS. R. R .- The dead body of Alva C. Stone of Montague, Mass., was found near Deerfield river bridge, on the track of the Vt. & Mass, railroad, on Wednesday morning, 10th inst. It lay with the back up, the shoulders against one rail, the head gone, one leg cut off, and with the clothing somewhat torn. Some men living in the vicinity were notified. went out and looked at the body and searched for the missing head, without being able to find it. A cap and umbrella were discovered a few feet distant and near the west end of the bridge. The body was not removed until the half-past six passenger and a freight train had run over it. It was finally taken off by railroad employes sent for that purpose. The head could not be found. Coroner Hawland's jury found that the last person who saw Stone alive was an intoxicated companion who left him lying upon the track near the place where the body was found. It was raining hard when the Boston train crossed the bridge, about an hour later. The conductor, engineer and fireman testified that they were running slow, that it was dark, and that the steam that generated SHOOTING MATCH .-- A shooting match | in consequence of the falling rain upon the boiler prevented them from seeing water upon the track. There can be but little doubt that the head was rolled

in some way into the river. The jury in their verdict find that Stone came to his death in consequence of being run over by the Tuesday evening train, but exonerate the railroad officials from all blame. The conductor of the Thursday morning train had reason moved, and did not see it until too late to stop. The men who first saw it upon the track should have laid it aside, but supposed, mistakenly, that the law would not permit them to do so.

Mr. Stone was about fifty years of age, and leaves a wife and two daughters. The sad affair is another proof of the terrible results which follow the sale of intoxicating liquors.

There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and great torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Da. J. WALKER'S

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic and Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Aperient and mild Laxative properties of Dr. Walker's Vinegar Bitters are the best safeguard in all cases of eruptions and malignant fevera, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, colic, cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diurenc properties act on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters, No epidemic can take hold of a system thus forearmed. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

IRON IN THE BLOOD

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The en-riched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the won-

derful success of this remedy in curing Dyspepsia, Liver Com-plaint, Dropsy, Chronic Diar-rhæa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor Diseases of the Kidneys and Bladder, Female Complaints, Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, the energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

WORMS.—The only known and sure Remedy for Worms—Pin, Tape, etc.

Tumor of 12 Years' Growth Cured by Radway's Resolvent. Dr. Ranway:—I have had Ovarian Tumor in the ovaries and bowels. All the Doctors said "there was no help for it." I tried every thing that was recommended; but nothing helped me. I saw your Resolvent, and thought I would try it; but had no faith in it, because I had suffered for twelve years. I took six bottles of the Resolvent, and one box of Radway's Pills, and two bottles of your Resolvent, and one box of Radway's Pills, and two bottles of your Resolvent, sum one to be seen or felt, and I feel better, sumarter, and happier than I have for twelve years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.
